

M.MUTHU MAHESWARAN

MERN Stack Developer

☎ +91-9087546711 ✉ muthumaheswaranmm@gmail.com [in linkedin.com/in/muthu-maheswaran](https://www.linkedin.com/in/muthu-maheswaran)

Summary

Full Stack Developer specializing in the MERN stack with a strong foundation in Python, HTML, CSS, JavaScript, React, Node.js, Express.js, and MongoDB. Experienced in building scalable web applications, developing RESTful APIs, and working with SQL and FastAPI. Skilled in designing efficient backend systems and responsive frontend interfaces. Interested in developing high-performance applications and contributing to dynamic development teams.

Skills

Programming Languages: JavaScript, Python, SQL

Frontend Development: HTML, CSS, React.js RESTful APIs, API Integration

Backend Development: Node.js, Express.js, FastAPI

Database Management: MongoDB, SQL

Core Concepts: Full Stack Development, Responsive Design, CRUD Operations, MVC Architecture

Experience

Google Student Ambassador

September 2025 – January 2026

Google Developer Student Clubs (GDSC)

Campus Program

- Organized and conducted technical workshops and sessions on web development and modern technologies, engaging 100+ students across campus.
- Promoted Google developer tools and programs, increasing student participation in community events and learning initiatives.
- Collaborated with student developers to build awareness around technologies like MERN stack, APIs, and cloud-based solutions.

Projects

Feedback Management System | MERN Stack

- Developed a full-stack web application to collect and manage user feedback with secure authentication and role-based access.
- Built RESTful APIs using Node.js and Express.js to handle CRUD operations for feedback, users, and admin controls.
- Designed responsive frontend interfaces using React.js for real-time form submission and feedback tracking.
- Integrated MongoDB for efficient data storage and retrieval, ensuring scalability and optimized query performance.

Learning Management System (LMS) | MERN Stack, FastAPI

- Built a scalable LMS platform to manage courses, users, and learning progress with authentication and authorization features.
- Developed backend services using Node.js and Express.js, and integrated FastAPI for handling specific high-performance API endpoints.
- Implemented course enrollment, progress tracking, and content delivery modules with dynamic UI using React.js.

Awards & Certifications

- **Google Student Ambassador (2025):** Represented Google Developer Student Clubs, organizing technical events and promoting developer programs across campus.
- **BIOS (Bions Infotechie of Sivanthi) – Event Team:** Organized and managed technical events including debugging, web design competitions, research paper presentations, and national-level conferences.
- **Spring Framework Certifications – Infosys Springboard:** Completed Spring 5 Basics, Spring Data JPA, and Spring REST courses focusing on backend development and API design.
- **Active Contributor in Technical Events:** Participated and contributed to multiple college-level and intercollegiate technical competitions.

Education

B.Tech. Information Technology

Dr.Sivanthi Aditanar College of Engineering

Graduated: 2027

CGPA: 8.2 / 10
